Viewing Assessment Data

To view assessment data in Triand, click "tests" in the Navigation menu.

When the test window displays, search options are available at the top of the screen. Click the drop down arrow to "Find tests shared by my friends". (NOTE: You will always choose this option.)

All tests will display, but you can filter the results to show reports based on report name, grade, or subject. Results are returned matching your criteria.

In the example below, the user entered "2009" in the search box and chose the "for Math" as the subject. Only tests from the year 2009 and the subject Math will display.

Last updated: June 08, 2010

When the results display, you can view the author, the test name, the subject/grade, and the report results for that test.

Click the report icon of the test you wish to view.

The report will appear with district level data.

Report data can be sorted by clicking on any of the column headings. For example, click "Total Students" to sort by total number of students (once for ascending order, twice for descending order).

Report:

Student Performance

Districts | Schools | Teachers | Classes | Students | My Students

Item | NCLB

Actions

Download report as excel | Download report as pdf

Assign student interventions

You can drill down to school, teacher, class, and student levels.
Click the name of your district to drill down to school level. Indicators make it easy to see what level of data you're viewing.

Click the name of your school to continue to drill down to teacher level.

No teacher data is captured for this assessment, but you can continue to drill down to the student level by clicking "All Students" twice.

(Note: All student names are masked with asterisk for training purposes. Users will be able to view this information.)

Individual student assessment data displays and can be sorted by clicking the column names.

Reports can also be exported to an Excel or PDF format, by clicking the appropriate button.
